GREEN TEA-70

(immune system support*)

Zāo[®] **Green Tea-70** is a dietary supplement to support proper immune system function.*

Green Tea is a water soluble antioxidant that is 100 times more effective than Vitamin C and 25 times better than Vitamin E.*

Green tea comes from the tea plant, *Camellia sinensis*, which is an excellent source of potent polyphenols (bioflavonoids with powerful antioxidant properties).* The four primary polyphenols in Green Tea are epicatechin, epicatechin gallate, epigallocatechin, and epigallocatechin-3-gallate (EGCG). Research has identified EGCG as the most active agent in Green tea.*

Zāo[®] **Green Tea-70** is a unique formula because it contains the highest percentage of EGCG currently on the market.* Each 500 mg capsule of **Zāo**[®] **Green Tea-70** is standardized to contain 70% or 350 mg of EGCG per 500 mg capsule. Most competitors only provide 35% to 40% EGCG.

Zāo[®] **Green Tea-70** supports:

- Immune system function*
- Cardiovascular health*
- Skin health*
- Joint comfort*
- Intestinal health*
- Liver function*
- Weight Loss*
- Dental care*
- Respiratory health*

EGCG supports liver health as well as detoxification and elimination functions.* Green Tea may increase the activity of antioxidants and detoxifying enzymes within the small intestine, liver, and lungs.*

EGCG helps to support cholesterol levels within normal ranges and balances the ratios of HDL and LDL cholesterol.*

Research demonstrates that EGCG supports the activity of B-Cells to produce higher antibody response and immune activity of the T-Cells and macrophages.*

EGCG is shown to support skin health by recycling aged cells and supporting new cell growth.* It offers antioxidant support against the free radicals that attack collagen (the skin's structural protein) and decreases the activity of the enzyme that breaks down collagen to help keep the skin firm and healthy.*

*This statement has not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.

EGCG may support metabolism due to its thermogenic effect and help to maintain normal blood insulin levels.*

EGCG supports the burning of fats and helps control appetite, which helps to support weight loss and weight management.*

Supplement Facts

Each capsule contains:

Green tea (<i>Camellia sinensis</i>) Extract	500 mg
Yielding: Total Polyphenols	450 mg
Epigallo-catechin-3-gallate (a polyphenol)	350 mg

Other ingredients: rice flour, vegetable cellulose.

- **Suggested Use:** Take 1 capsule once or twice daily, or as directed by your health care practitioner.
- **Warning:** If you are pregnant or nursing, consult your health care practitioner before taking this product.
