

LIBIDO SUPPORT*

A Dietary Supplement for Men and Women to Support Healthy Sexual Drive, Pleasure and Function.*

Libido Support* is designed to address those factors that may contribute to sexual dysfunction in men and women such as energy level, hormone balance, circulation and nervous system function.*

- Research indicates that as many as 43% of women and approximately 31% of men experience sexual dysfunction at some point in their lives.

Libido Support*:

- Alertness and Sexual Motivation*
- Energy Levels*
- Hormone Balance*
- Circulation and Oxygen Utilization*
- Nervous System Function*

Sexual Motivation - Aphrodisiacs

- Horny Goat Weed, Catuaba, Maca, Ashwagandha, Muira puama, Damiana, Tongkat ali, *Tribulus terrestris* and *Rhodiola rosea* are well-known aphrodisiacs that support sexual excitement, sexual mood enhancement, sexual response, heightened sensitivity, sexual desire, arousal, passion and inspire intimacy.*

Stress Management & Mood Balance

- DMG, Ashwagandha, Maca, Muira puama and *Rhodiola rosea* are adaptogens that help the body cope with stress.* DMG, Horny Goat Weed, Catuaba, Maca, *Rhodiola rosea*, Muira puama and Tongkat ali support mood, focus and concentration.*

Hormone Balance

- DMG, Horny Goat Weed, Maca, Muira puama, *Tribulus terrestris*, Damiana and Tongkat ali support balance of key hormones and neurotransmitters involved with sexual arousal.*

Endurance, Stamina and Energy Production

- DMG, Horny Goat Weed, Catuaba, Maca, Muira puama, *Tribulus terrestris*, *Rhodiola rosea*, Cnidium and Tongkat ali aid sexual performance by supporting energy production, endurance, and physical and mental stamina.* Together they support sexual energy to maximize sexual experience.*

Nervous System Support

- DMG, Horny Goat Weed, Catuaba, Muira puama, Cnidium and Damiana support nervous system function, stimulate sensory nerves, muscle control and blood flow to optimize sensitivity, maximize pleasure, improved quality of erection (in men) and genital engorgement (in women), and support satisfaction from tactile stimulation.*

SOME CHANGES YOU MAY NOTICE:

- Some men might notice harder, longer-lasting erections, a stronger libido, enhanced endurance and stamina, more pleasure during physical intimacy and a more powerful orgasm.*
- Some women may notice a stronger sexual desire, more engorgement of the genitals, more pleasure when touched, more frequent and more intense climaxes.*
- Some people may notice these changes within a few hours while for others it may take up to three days. Those with a very low libido and sexual function may need one or two weeks before experiencing results.
