

# SLIM BLEND<sup>™</sup>\*

**Slim Blend<sup>™</sup> is a vegetarian, dietary supplement that supports weight management.\***

**Slim Blend<sup>™</sup>** combines four ingredients (WellTrim<sup>®</sup> iG African Mango Seed Extract, Raspberry Ketone, Green Coffee Bean Extract and Green Tea Extract) that work synergistically to help break through weight loss barriers.\*

**Slim Blend<sup>™</sup> supports:**

- Thermogenesis\*
- Fat burning hormones Leptin and Adiponectin\*
- Appetite control\*
- Healthy blood sugar levels and reduced cravings\*
- Proper fat metabolism\*

**About the ingredients:**

- African Mango (*Irvingia gabonensis*) is a fruit found and grown West Africa. The extract derived from the seed has been shown to support weight management through appetite suppression and increased metabolic rate.\* It works to slow body fat production by supporting favorable changes in Glycerol-3 Phosphate, Leptin and Adiponectin which support reduction of the conversion of complex carbs into sugars, fat burning and hunger management.\* WellTrim<sup>®</sup> iG is a trademarked and patented extract of *Irvingia gabonensis* that is a clinically proven ingredient that supports multi-functional weight management activity.\*
- Raspberry Ketone is a compound that produces the smell in raspberries. It supports the weight loss process by supporting the body's ability to produce Adiponectin, a hormone that increases metabolism and modulates a number of metabolic processes, including glucose regulation and fatty acid catabolism.\* Adiponectin is exclusively secreted from adipose tissue and supports weight management via the brain. This is similar to the action of leptin, a hormone produced in adipose tissue that increases metabolism and supports appetite control.\*

- Green Coffee Bean Extract provides free radical support and also supports metabolism in order to burn a higher proportion of lipids to carbohydrates.\* Green Coffee Bean Extract contains two important polyphenolic compounds- caffeic and chlorogenic acids. Caffeic acid provides a safe energy boost while being naturally low in caffeine.\* Chlorogenic acid helps to slow the release of glucose into the bloodstream after a meal and reduce the absorption of dietary fat.\*
- Green Tea Extract is an excellent source of potent polyphenols (bioflavonoids with healthful properties).\* Research has identified EGCG as the most active polyphenolic compound in Green Tea that supports thermogenesis (fat burning), healthy blood insulin levels and appetite control.\* The Green Tea Extract used in this product is standardized to contain 70% EGCG per capsule!

**Supplement Facts**

**Serving Size: 1 Capsule      60 Vegetarian / Gluten Free Capsules**

**Amount Per Serving**

WellTrim <sup>®</sup> iG (IGOB131 <sup>®</sup> ) African Mango	
( <i>Irvingia gabonensis</i> ) Seed Extract	150 mg
Green Coffee Bean Extract	300 mg
Green Tea ( <i>Camellia sinensis</i> L.) Leaf Extract	100 mg
yielding Epigallo-catechin-3-gallate (EGCG)	70 mg
Raspberry Ketone	100 mg

Other ingredients: vegetable cellulose (capsule), microcrystalline cellulose, vegetarian leucine.

**Warning:** If pregnant or nursing, consult your healthcare practitioner before taking this product.

**Suggested Use:** As a dietary supplement, take 1 capsule twice daily before a meal, or as directed by your healthcare practitioner.
